

## Single Part Dispensing System

The X-100 is a tabletop positive displacement dispensing system for a wide variety of adhesives, sealants, potting compounds and UV cure materials; Extremely accurate and repeatable for the most demanding dispense specifications. Our proprietary microprocessor digital control maintains accuracy and repeatability with every shot. Available I/O provides easy integration to automation.

## Specifications

<b>Viscosity Range:</b>	1 to 50,000 cps (Up to 250,000 cps w/ pressurized feed system)
<b>Flow rate:</b>	0.5cc to 6.0cc per second
<b>Shot size:</b>	0.5cc to 100cc
<b>Accuracy:</b>	+/- <2%
<b>Power:</b>	100 – 240 VAC Single Phase 50/60 Hz

## Features

- Digital Microprocessor Control
- Touchpad Interface
- Up to 15 Storable Programs
- Abrasion Resistant
- “Suck back” capable
- Self priming

## Available Options

- Food Grade
- Mounting Stand
- Various Feed Reservoirs
- Integrates with Automation/ Robotics
